- ▶ Free movement: the lower part of the cabinet has heavy-duty locking casters, which can be moved anytime and anywhere without restriction.
- ▶ The entire body of the cabinet can be customized.

Instructions for use of Heavy Steel Rolling Garage Cabinets

- ▶ Installation: The entire tool cabinet is received, and only the casters need to be installed.
- ▶ Storage tools: Store tools according to type, size, purpose, etc., divide them into different drawers or cabinets, and mark each storage area for later access.
- ▶ Maintain the tool cabinet: Regularly clean the inside and outside of the tool cabinet to ensure that the slide rails of the drawers and doors are unobstructed and unblocked, and maintain the glossiness of the cabinet surface.
- ▶ Use protection: When using tools, please pay attention to: use appropriate tools to complete certain tasks, do not use tools that are too large or unsuitable; when using some insulated tools, please pay attention to safety; carefully store and put away tools, So as not to damage the drawers and cabinets.
- ▶ Precautions for use: Please use it according to the load-bearing standard of the tool cabinet, and avoid placing heavy or unstable items on the tool cabinet to avoid

deformation or rupture of the cabinet; do not stand or sit on the tool cabinet to avoid falling or falling. The cabinet is deformed.

FAQ

Q:Why are heavy steel rolling garage cabinets off the floor?

A:Getting the cabinets off the floor is a simple solution. It keeps stored items safe from moisture and mold growth that can potentially cause health problems for the inhabitants. Wall-mounted cabinets offer a slew of benefits, but installing them can be tricky.

Q:Is a heavy steel rolling garage cabinet better than wood?

A:Quite simply, metal is a more durable material than wood. Metal can withstand high snow loads and extreme weather, plus it takes a lot more effort to break into compared to wooden garages. For additional peace of mind, install a security system on your property.

Q;What year were metal cabinets popular?

A:However, it wasn't until the 1930s that steel cabinets became widely popular, as manufacturers began to improve their designs and offer a wider variety of colors and finishes. During World War II, steel was in short supply due to its use in the war effort, and the production of steel kitchen cabinets slowed down.
